Dear Sir:

Pursuant to 37 CFR § 1.56, the attention of the Patent and Trademark Office is hereby directed to the additional references listed on the attached Form PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom. A copy of each listed reference also is attached.

This Third Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits as far as is known to the undersigned.

While the information and references disclosed in this Third Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, it is not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

It is submitted that this Third Information Disclosure Statement is in compliance with 37 CFR § 1.98 and the Examiner is respectfully requested to consider the listed references.

While Applicants believe that all references cited in this Third Information Disclosure Statement, and in the Information Disclosure Statements filed on August 15, 2002 and September 26, 2002, may have some pertinence to the invention claimed herein, and request full consideration of such references by the Examiner, Applicants particularly wish to direct the Examiner's attention to FIG. 5 (and accompanying description) of Reference BA (WO 02/21542) and to FIG. 6 (and accompanying description) of reference BB (WO 00/48196), submitted with the Second Information Disclosure Statement filed on September 26, 2002. Further, Applicants particularly wish to direct the Examiner's attention to FIG. 5 (and accompanying description) of reference AB' (U.S. Patent Application Publication No. 2002/0168820-A1) being filed concurrently herewith. Applicants believe these references, and in particular the noted figures (and accompanying descriptions) of these three references, may be more relevant than others of the cited references.
